FIRESIDE LODGE FURNITURE COMPANY

About Fireside Lodge Furniture Company

In 1998, Fireside Lodge Furniture began as a builder of handcrafted cedar log furniture that supplied a regional market. Over the next several years, our reach and variety of product offerings increased to include everything from hickory log to reclaimed barnwood, and incorporating styles ranging from our "rustic" roots to transitional, industrial, modern, and beyond under our wholesale brands and sister companies.

Today, more than 25 years later, our products are found in furniture stores, campgrounds, hotels, resorts, lodges, restaurants, and homes across North America and as far away as New Zealand.

Wood Finishes on our furniture

Fireside Lodge Furniture offers three different finish options. Though most of our furniture uses our standard finish, some items will come standard with a harder Armor or Liquid Glass finish. Still yet other pieces that are used in high-wear areas (like dining room tables, coffee tables, and others) have the option of upgrading to the Armor or Liquid Glass finishes.

If a piece of furniture uses one of the optional finishes as standard, it will be called out in the product's specifications.

Standard Finish

Fireside Lodge uses a clear coat, catalyzed lacquer with a satin finish. The finish draws out the natural colors in the wood and will seal and protect your furniture.

Treat the surface with the level of care that you would with any fine furniture.

Armor Finish

Providing a medium satin sheen, this premium quality, post-catalyzed, alkyd-amino varnish is formulated to offer superior durability, and UV protection. It helps prevent scratching and denting, but does not all together eliminate the possibility, especially on soft wood products like found on the WoodShop and Cedar Log Collections.

This finish offers additional protection on high-use surfaces like dining table tops.

Though the Armor finish holds up to frequent cleaning, avoid using cleaners that contain ammonia or bleach.

Liquid Glass Finish

With a high gloss sheen, this upgrade finish is made from a two-part epoxy. Equivalent to 50 coats of polyurethane, the finish is tough, yet flexible and not prone to shattering from impact.

With outstanding moisture resistance, Liquid Glass is an ideal coating for bathroom vanities, bar tops, coffee tables, desk tops, and dining tables.

Pledge furniture polish will prolong the life of the surface and clean smudges. Impressions will often disappear over time (depending on room temperature), but light surface scratches may appear with use.
